Core expertise: Foam cream technology

Traditional family business

Now being run by the 3rd generation, Vema manufactures in Bavaria. We are specialists in the German aerosol contract manufacturing sector.

Over 75 years of experience of filling aerosols

You profit from close collaboration with us through quick, flexible solutions and short decision-making processes.

High quality standards

Raw materials, packaging, bulk goods and finished products are tested through our highly efficient quality control that runs parallel to our production. Quality made in Germany.

Processes tailored to our customers

Thanks to our in-house research laboratory, we can quickly respond to your requests. Discretion and reliability are the basis of a long-term partnership with you.

Your full-service partner for aerosols.

Profit from our many years of experience and assurance of quality. Together, we will find fast, flexible, pragmatic solutions for your needs. We are always happy to advise you! From start-ups and influencers to strong, well-known, global brands and retail chains. You want a product—we have the solution!
